March 12, 2020

Dear Neighbor,

To help ensure the health and safety of your community, BGE is postponing the Bush River Crossing Project Open House scheduled on Tuesday, March 17, 2020 at the Edgewood Library. We made this decision out of an abundance of caution after carefully considering recommendations from health officials on infectious disease prevention in Maryland and across the country. Key measures include avoiding crowds and practicing social distancing.

You will have an opportunity to provide input before BGE moves forward with this project. As an alternative to the in-person open house, this meeting will transition to a dial-in phone or video conference so we can continue sharing projects plans with you and answer any questions you might have. The day and time for the dial-in phone or video conference will be provided at a later date. In the meantime, we are available to you and others in your community who may have questions about this project that require immediate attention. Please direct questions and comments to BGE at BGEPProject@bge.com or 410.470.7700 and reference the Bush River Crossing Project.

Information about this project is available at <https://www.bge-tsrep.com/> (click on the Bush River Crossing Project link in the project list near the bottom of the page).

Thank you for your continued patience and understanding, and for helping BGE maintain its commitment to providing customers with safe and reliable energy service.

Sincerely,

Tiffany Matthews-Lay
