Email: permits@constellation.com

Description of Work:

THREE TEMPORARY CONSTRUCTION ENTRANCES FOR AERIAL TRANSMISSION LINE REPLACEMENT

The following Special Conditions apply to this permit.

- ✓ An approved Traffic Control Permit will be required prior to starting work.

Notifications:

- Permittee must notify **BRIAN FENDER**, the MDOT State Highway Administration **Assistant District Utility Engineer**, at **(410) 229-2347**, 48 hours prior to commencement of any activities related to this permit.
- The permittee will designate the Traffic Manager for this permit and a 24 hour emergency number at the pre-construction meeting.
- All work for this permit shall be in conformance with the above referenced documentation supplied by the utility company.

THIS PERMIT IS ISSUED WITH THE REQUIREMENT THAT IT WILL BE ENFORCED BY THE GENERAL PROVISIONS, SPECIAL PROVISIONS, AND PERMIT REGULATIONS AS OUTLINED IN

**GENERAL PERMIT FOR STORMWATER ASSOCIATED
WITH CONSTRUCTION ACTIVITY**

State Discharge Permit Number:

MDRCM047U

Effective Date: 3/11/2019

Expiration Date: 12/31/2019

NOTE: If site work is complete per Part II. 1. prior to the expiration date, the permittee must submit a Notice of Termination and terminate the permit.

Pursuant to the provisions of Title 9 of the Environment Article, Annotated Code of Maryland, and regulations promulgated thereunder, and the provisions of the Clean Water Act, 33 U.S.C., Section 1251 et. seq., and implementing regulations 40 CFR Parts 122, 123, 124 and 125, the Department of the Environment hereby establishes conditions and requirements pertinent to stormwater associated with construction activity at the site described below and authorizes:

**Baltimore Gas & Electric
1699 Leadenhall St
Baltimore, Maryland 21230**

TO DISCHARGE STORMWATER FROM:

**Five Forks Electric Transmission Replacement
construction project on
13.00 acres
at property located at
5024 Rocks Road, Pylesville, Maryland 21132**

If the current erosion and sediment control plan approval covers only part of the entire site covered by this permit, this permit does not authorize discharges from the other portions of the site until the appropriate erosion and sediment control approval authority approves the erosion and sediment control plan for those portions.

**TO:
Surface waters -- Broad Creek**

which is

Waters protected for Water Contact Recreation, Fishing, and Protection of Aquatic Life, Wildlife, and Public Water Supply

in accordance with the 2014 General Permit. The vicinity map submitted with the Notice of Intent is considered incorporated herein and made a part hereof.

Larry,

The NOI permit is still active and good. On page 14 of the General Permit, "C. Continuation of the Expired General Permit" states "**An expired general permit continues in force and effect until a new general permit is issued.**" Since the GP shows an expiration date of December 31, 2019 (see below), MDE had to show that expiration date. As with many MDE permits, this one technically expired but remains in effect until they issue a new General Permit. You are good to go.....greg k.

**MARYLAND DEPARTMENT OF THE ENVIRONMENT
GENERAL PERMIT FOR STORMWATER ASSOCIATED WITH CONSTRUCTION ACTIVITY
General NPDES Permit Number MDRC
State Discharge Permit Number 14GP**

EFFECTIVE DATE: January 1, 2015 EXPIRATION DATE: December 31, 2019

Greg

We will soon have a Field Office Trailer at the Graceton Laydown Yard. The NOI Binder will be kept there. Please check the MDE NOI Permit it appears it expired in 12/31/2019.

Larry/Ed,

I have a 2019 powerpoint presentation that states BGE has a county road permit. EN Engineering will need to check their files for it as I do not have it.

There is no MDE wetland permit, so notification is not required.

See attached Bush River permit conditions matrix. I suggest the project manager create a similar matrix for this project to be sure
